

Yunhong Wu

608-236-3697 • wu292@wisc.edu

EDUCATION

Harvard T.H. Chan School of Public Health

Master of Science in Biostatistics, GPA: 3.93/4.00

Boston, MA

Sept. 2018 – May 2020

University of Wisconsin-Madison

Bachelor of Science in Statistics, Minor in Computer Science, GPA: 3.92/4.00

Madison, WI

Sept. 2014 – Dec. 2017

EXPERIENCE

Boston Children's Hospital

Biostatistician I; Supervisor: Dr. David Wypij
Research Assistant

Boston, MA

June 2020 – Present

Feb. 2020 – May 2020

- Apply advanced statistical and data science methodologies to the design and analysis of biomedical research and clinical data.
- Develop statistical analysis plans, statistical reports, Data and Safety Monitoring Board (DSMB) reports, and data summarization.

Maimonides Medical Center

Researcher; Advisor: Dr. Yiqing Xu

Brooklyn, NY

July 2020 – Present

- Conduct collaborative research with clinical investigators; implement appropriate methodologies for addressing study objectives.
- Contribute to writing and preparation of academic publications such as providing input into the interpretation of statistical results.

Boston Consulting Group

Part-Time Assistant

Shanghai, China

Dec. 2019 – Jan. 2020

- Provided statistical support for real world evidence studies such as conducting power analyses to determine required sample sizes.

Vertex Pharmaceuticals

Statistical Programming Intern

Boston, MA

May 2019 – Dec. 2019

- Built a log message navigation tool with SAS Macro to boost up the efficiency of identifying and correcting issues in SAS log.
- Created SAS analysis datasets and generated tables, figures, and listings for regulatory submission following CDISC standards.

Eli Lilly (China) R&D Co., Ltd.

Biostatistics Intern

Shanghai, China

Mar. 2018 – Aug. 2018

- Performed data wrangling and analyzed healthcare data; produced tables/figures for study reports; wrote abstract and designed poster.
- Developed an interactive web application with R-Shiny to facilitate design of clinical studies by visualizing trends of survival curves.

University of Wisconsin School of Medicine and Public Health

Undergraduate Research Assistant; Advisor: Dr. Thomas Cook

Madison, WI

Apr. 2017 – Feb. 2018

- Created an imputation procedure for data missing not at random by post-processing datasets imputed assuming missing at random.
- Conducted sensitivity analysis to explore robustness of inferences under plausible departures from missing at random assumption.

Undergraduate Research Assistant; Advisor: Dr. Richard Chappell

Oct. 2017 – Dec. 2017

- Analyzed clinical data from breast cancer patients using R and identified possible factors to predict tumor recurrence.
- Investigated the statistical methods (such as the Cox model) for modeling metastasis and control of breast cancers.

QuintilesIMS (Shanghai) Co., Ltd.

Intern; Clinical Data Management & Statistical Programming

Shanghai, China

Summer 2015 and 2016

- Conducted data review and queried data inconsistencies; performed quality control checks of peers' SAS code and output.
