EDUCATION

University of Wisconsin-Madison

Doctor of Philosophy in Biomedical Data Science, GPA: 4.00/4.00

Madison, WI

June 2022 – Expected Dec. 2026

Harvard T.H. Chan School of Public Health

Master of Science in Biostatistics, GPA: 3.93/4.00

Boston, MA

Sept. 2018 – May 2020

University of Wisconsin-Madison

Bachelor of Science in Statistics, Minor in Computer Science, GPA: 3.92/4.00

Madison, WI

Sept. 2014 – Dec. 2017

EXPERIENCE

University of Wisconsin School of Medicine and Public Health

Graduate Research Assistant

Madison, WI

June 2022 – Present

- Develop statistical methods for estimating survival functions through the extension of Breslow estimator under monotone hazards.
- Extended penalized spline of propensity methods for treatment comparison by balancing covariates via alternative weighting methods.
- Investigated win ratio on interpretation of composite endpoints in clinical trials by comparing with hazard ratio using simulated data.

Takeda Pharmaceuticals

Statistics PhD Intern

Cambridge, MA

May. 2024 – Aug. 2024

- Evaluated the performance of indirect comparison (IC) methods and proposed a doubly robust estimator for population-adjusted ICs.

Boston Children's Hospital

Biostatistician I; Supervisor: Dr. David Wypij

Boston, MA

June 2020 – June 2022

- Applied statistical methodologies to the design and analysis of clinical trials; developed Data and Safety Monitoring Board reports.

Boston Consulting Group

Part-Time Assistant

Shanghai, China

Dec. 2019 – Jan. 2020

- Provided statistical support for real world evidence studies such as conducting power analyses to determine required sample sizes.

Vertex Pharmaceuticals

Statistical Programming Intern

Boston, MA

May 2019 – Dec. 2019

- Built a log message navigation tool with SAS Macro to boost up the efficiency of identifying and correcting issues in SAS log.
- Created SAS analysis datasets and generated tables, figures, and listings for regulatory submission following CDISC standards.

Eli Lilly (China) R&D Co., Ltd.

Biostatistics Intern

Shanghai, China

Mar. 2018 – Aug. 2018

- Performed data wrangling and analyzed healthcare data; produced tables/figures for study reports; wrote abstract and designed poster.
- Developed an interactive web application with R-Shiny to facilitate design of clinical studies by visualizing trends of survival curves.

University of Wisconsin School of Medicine and Public Health

Undergraduate Research Assistant; Advisor: Dr. Thomas Cook

Madison, WI

Apr. 2017 – Feb. 2018

- Created an imputation procedure for data missing not at random by post-processing datasets imputed assuming missing at random.
